The Current Empress has a poor relationship with her Uncle, who attempted to manipulate her father into choosing him as heir but failed for unknown reasons. Upon her ascension he was assigned as a diplomat and is accompanied by two soldiers who keep him in line.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

They are a banana republic (or "corporate democracy") in the center of the Atlantic Ocean off the east of the Iberian peninsula. They are named after Maxwell/Maximilian Synne.

They have no upper house, but their lower house (???) is called the "Greycourt" parliament.

**Kabzeel**, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "*Royal Socialism*", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

The concept of a family in Kabzeel is one of the most important values for Kabzeelian society. Socialist values (why) are encouraged and promoted by the government of Kabzeel. They also believe nuclear families (Wtf is a nuclear family?) to be reactionary.

Socialist Family = More equal relationship between man and woman (it should probably be mentioned that it has no connections to marxism)

Nuclear Family = 1950s traditional family structure headed by a patriarch

Note: In practice though, the socialist family structure has, since the early 20th century, degenerated back into a more traditional nuclear family in this country in particular.

Synne - the island- remained undiscovered until 1719, a rather spectacular feat considering it's location. It wasn't colonized- at all, until 1911 by a british military force, who later abandoned it in 1914. It continued like this for decades, somehow, until 1967, when a billionaire took over the island...

People arrived and settled on the island of Noarve Scotia starting in 2300 BC. Intermittent wars over religion started in 1208 BC, continuing until the 9th century AD, when the Kingdom of Uvoan formed. The people of the island had to defend themselves against Viking attacks. Smaller buffer states also formed along the coast to trade with Europeans, and Uvoan became very rich and strong.

In Hatsunia's world, there exist two China's, that were divided by the winning powers of WW2 (The Allies, headed by the US and Great Britain and the Communists, headed by the Soviet Union). China was split into a South China with a capitalist economy, and a North China with a socialist economy
