\(=□□´=) "Woof!" says Cattail. "Woof woof woof! Does this confuse you? Do you expect me to say 'Meow' like a cat because the word 'cat' is in my name and I also look like a cat? That's not how things work around here. I refuse to be pigeonholed. Nah, I like to meow, so "Meow!" :3"- Cattail, from *Plants vs. Zombies*, with a slight addition by the nation owner

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
