The "Mighty Mo" is an *Iowa*-class battleship built for the United States Navy during World War II.

She is particularly notable for being chosen by General Douglas MacArthur for the Japanese surrender ceremony at the end of the war. She earned three battle stars during World War II, gained another five during the Korean War, and then was decommissioned in 1955 for over 30 years before her refit and brief six-year recommissioning in 1986. She is now preserved as a museum ship.

Ha ha ha, just joking. I'm guessing you got offended at my remark about your name being more suitable for a city than a country, which wasn't my intent.

In fact, I tend to prefer non-nation nations as worldbuilding projects over actual nations; they just have so much more room for creativity and unconventional ideas that might seem nonsensical to add to a conventional nation's lore, and can cater to different users' interests much more easily.
