Ziggy Marley - Believe In Yourself (The Arthur Theme Song)

From: The TV show Arthur (1996-present)  
Genre: Reggae

Nostalgia.

...wait...**WHAT!?** Ziggy Marley did the theme song for that show!?

How the *hell* did I never know this?

Subconsciously, maybe watching that *non-stop* as a kid is the reason I like reggae.

DMX - No Sunshine

Rush - 2112

The sleep is still in my eyes  
The dream is still in my head

I heave a sigh and sadly smile  
And lie a while in bed

I wish that it might come to pass  
Not fade like all my dreams...

Just think of what my life might be  
In a world like I have seen!

I don't think I can carry on  
Carry on this cold and empty life

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
