"Oo woo? What's this? A meme that is supposed to be dead and remain so has come back...in the 2020s? Gosh darn it, I feel this is just as bad as my vocabulary is getting nerfed by The Writer to family-friendly cussing. Dang it! Okay, straight off the bat: Shrek, not the abominable meme version, was and still is one of the memorable animated characters since I was...huh, I am growing old."

"But seeing Shrek reduced to this dictatorial, serial rapist lurking around the Internet stirs...anger in me. I think. Yeah, because Shrek is an angry and lonely ogre who lives in a swamp, isolated from people, and angry for the reason that he gets picked on by people who judge him at face value; but finally he has a wife, friends and family in the Shrek trilogy (Shrek, Shrek 2 and Shrek Forever After); and now his appearance is just synonymous with M E M E S and creepiness. Perhaps I am just hangry for some pizza and not at this version of Shrek. Actually... I am hangry. I'm gonna go order a Pizza Hut; large pizza, Meat Lovers, and stuffed crust. Ooooh...deliciousness."

From Russia? But she is a volunteer at a Level 4 Military Research Facility if I am reading that correctly?"

"From the moment I read: 'Class One Criminal. Russia. Volunteer for a Level 4 Military Research Facility' I knew she's gonna be trouble for the people around her, *in spite* of her being a quiet girl. I'm okay with characters having quiet personalities, Koshka just gives off bad vibes just being *mostly* quiet in person. I'll just have to judge her at face value, perhaps consider her...less of a person and more of a weapon."

"...Is this a joke? what do you mean that this is true? HKrell you can't expect us to believe that this is real. Whatever, we'll act as if it is. So this Shrek is an absolute moron if this report is accurate. While having a good amount of control over your population is good, what he has done is simply too far. Not only is the system that he has created bound to fail the second he dies, but the amount of people that he kills with his current set of policies is unsustainable. We doubt that this Shrek is even real as these numbers would undoubtedly depopulate a nation and open the door to rebellion in places that he's recently conquered. We also doubt that his claim of divinity is truly believed by the masses as much as everyone inside Masrissia is too afraid to say that he isn't which is certainly a bad thing. Seeing as Shrek doesn't even feed his population, he is almost sure to find that if some power were to try and seize his territory again, he would be doomed. In fact, maybe that's something Octavia should do if this nation is real. If he couldn't tell already our opinion is negative."

"Oh look, another leader of stupid primitives. Such leaders, if they can even be described as such, are so beneath me that there's no point in even addressing them. There is no reason to attempt diplomacy, because there is nothing that primitives can possibly give me that would be worth it, that I cannot simply take by superior force of arms. Primitives are so stupid, it's far more enjoyable to just fuck around with them. How shall I go about this? The dossier suggests that Ari is a decent enough strategist and warrior. Perhaps I shall flood their economy with man-portable laser weapons and watch their stupid, primitive world collapse in terror? That would be amusing."

rival powers reminds me of how I got New Vegas's independence from both the NCR and Caesar's Legion.

But the similarities end there. Rebuilding a wasteland two hundreds years after nuclear war is different from fighting off an alien invasion. In the former situation, it is necessary that Vegas remain independent, such that I will best be able to utilize the economic energies pouring in from tourism and gambling in order to spread humanity among the stars. Neither the NCR nor the Legion have any such vision.

In the latter situation, however, total independence for the German Democratic Republic is ultimately not necessary for the survival for humanity. Brehme's national resources would be better spent fighting against the invading aliens than on attacking her fellow humans. Sure, she's accomplished something difficult - that's something I would respect, were it not for the existence of an easier way that has a better result.

"Oh Pickett, you are so close to perfection and yet you have deliberately lead the RCAS away from the proper path because of your mislead ideology. We do commend you for assimilating your population and introducing a drone based army to prevent the losses of your own, but your belief in anarchy is simply unsupportable. Now while we care little for both right and left wing economics as a leader should use whatever works best for their nation, but this anarchism you promote gives far too much power to the common man and will surely lead to less than ideal decisions on the local level.

The common man is a very feeble minded creature and allowing them to be lead astray by those in their own community who would work against the interests of the state is something that we cannot support. Another thing that you insist on is being racist. From a purely practical perspective, this has been a disastrous policy for the RCAS seeing as it did create Azania, a state which wants to see yours annihilated. While you've been able to beat them back for

the time being clearly this was an objective failure of your government as now the Chinese have another, somewhat powerful ally which they will use to chip away at your state.

We have realized that your racism is so deeply ingrained in your mind, and by extension your entire culture, that trying to remove it is pointless we can offer you one bit of advice if you cannot stand the other races on your planet. *Finish the job next time.* Do not try this half-assed expulsion and kill every single member of those other races to prevent more Azania like situations. While brutal, this is the only way to truly rid yourself of the self-imposed problem and it would also be far more efficient. Overall, our opinion on Pickett is neutral. There is some major room for improvement, but we have not written him off yet. You are immortal, so hopefully whenever you re-involve yourself into politics do try and listen to the advice we have given you."

In insisting it's a political simulation, NS ignores its reality as a political simulation *game*. Games have boundaries, and modern roleplaying games have safety tools. NS has neither, leaving it stuck as a badge-collecting pay-to-win where causticness is excused as "character," grieving/raiding is "just politics," and F7 is more courteous than General Assembly.

"It still baffles and perplexes me how anyone can call such a regime like Liagolas as 'enlightened' in any way. They make Sicily look like a utopia in comparison to what they seem to do. No unique names, no individual identity, nothing. Everyone is expected to be the exact same. At least *my* regime, for as cruel as people will say it is, recognizes the individual."

"Hm. You know, when I put in a request for a dossier, I expect a little bit more than just a name. There really isn't much I can do with this, I'm afraid - send a memo down to Records. Clearly there's been a bit of a slip-up somewhere."

The Liagolas of the Dominion: *"It is the perspective of the Dominion that Yona is... oddly admirable. She recognizes that all denizens of the realm are merely 'biomass.' It is the regret of the Dominion to note, however, that unfortunately Yona fails to complete the logic and recognize that she, herself, also ought to be an appendage to the realm. It is the supposition of the Dominion that therein lies Yona's failing. The Supreme Ruler of All Reality believes she is at the center of All Reality, rather than realizing she must instead be reality manifest. Then the realm would be a complete person, with a Yona as the brain and heart and all the 'biomass' as appendages and organs."*

"Ah, thank you. Though this is, if anything, more cryptic than what you handed me prior. A society of truly alien workings, headed by an individual who tries their very hardest to appear as the collective itself. I've seen it done before, but never really out of a desire for unity - typically, anyone masquerading as an embodiment of the state does so merely to cajole their citizens into obeying. Here, the sword seems to cut

both ways - a "leader" indoctrinated into believing they and the nation are one and the same, in a rather literal fashion. And so I must conclude that they are no leader after all; indeed, while their own intentions may be noble in some twisted, involuntary fashion, their entire existence and position appears to have been constructed as a figurehead. This being said, the currently incumbent... shall we say, gear, appears to have thrown something of a wrench in the works. That's the trouble with such a fine-tuned system of governance - there are always going to be factors outside your control, no matter how extensively you build up your apparatus of state. One must construct an organ that is both robust and efficient, however difficult this may seem - believe me, I learned that particular lesson the hard way. And of course, a state built around repression of the individual is a state that is doomed to crumble; it would seem that the impetus for that is already in place. I've little more to add, given the mystique surrounding this Liagolas figure, save that I will be watching the fate of their nation with interest. Whatever their motives in shaking up the status quo may be, the ripples thereof are sure to be felt."
