Outset Island, Cory Johnson.

It's a bunch of "reinterpretations" of the music from the Zelda games in a post rock style. It's interesting and pretty good, but I think it could be fantastic with better production.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

I had almost forgotten how goddamn good song this is. Filthy and almost disgusting lyrics. Gotta love it.

The language of *Draugaborg* is *Draugskur*. The demonym is *Draugaborgskúr*(male) or *Draugaborgskö* (female), both plural and singular. The adjective is *Draugaborgar*. *Draugskur* is a constructed and artistic language created by me, and is based mainly on Icelandic and Russian. Please note that its systems and grammar may be modified, so certain posts will be rendered void in retrospect.

Popfrontical Ecelection - Xploding Plastix

intended replacement nation for United State of America
(original the character donut steel)

Who is in control of those in control?

[Why does Ben Lee \(who I assume is the linoleum faced 'wipe-clean-look' profile in the bottom right-hand corner\) look like Rene Auberjonois? Why would Odo be hanging around a rubbish looking holo-world full of quidditch goals that vaguely resembles rejected Final Fantasy 13 concept art? And what happened in order for him to want to breath tornados? And how?!... It would take a vaster intellect than mine in order to answer those questions.](#)

A Present to Mr. Ma - Moodorama

Has a feeling of urgency and danger with sneakiness mixed in with it. I'm thinking of a guy either on the run or trying to poison somebody (The present of the song's name). Overall it's pretty good.
