Christianity is the largest religion in Waisnor -stands to reason, given it's an Eastern European nation- but surprisingly it is the Orthodox Church that's more popular, rather than Catholicism -which you'd expect from an ex-Commonwealth realm.

Going by their World Factbook, a *lot* of countries have ahistorical -that is to say, arguably better?- borders. Poland seems to have lost Kresy but *not* compensated at the expense of ~10 million Germans, Alsace-Lorraine is German despite the map saying "Germany lost WW1", The US is *mighty* expansionist, having conquered its way in the Caribbean and Spain -though the Philippines is not American for some reason- and last but certainly not least, The UK controls some, but not all, of Brittany.

Their nation has no navy, due to being landlocked, with their rivers and waterways instead being patrolled by their police force.

I learned that they are located in the Pacific, but have influences from France and East Asia. Their national anthem has the French language as its official lyrics. Also ex-King William II has a cool beard.

The National Parliament of the Federal Republic of Madrinpoor is pretty packed, with up to thirteen parties (the smallest being the Pirate Party and Worker's Party, both with 26) and another four independents. Also, interesting that the anarchists, of all people, participated in state elections (and got thirty-two seats, no less!). I also found it hilarious that the longest (real, non-medical related) word in the English language snuck its way into that factbook lol.

Waisnor is capable of hosting strange things, such as a festival for Gravity Falls when the show ended. Or the fiasco with Avengers: Endgame.

The State of Spain controls not just the continental territories of Spain, but also parts of Nouvelle-Aquitaine and Occitania, and has the population of OTL Spain... which makes me wonder *what* happened there?

Madrinpoor comes from the Tlingit words "Madrin", meaning free, and "Pore" meaning land.

There are a lot of interesting things in their world map for a MT country. For one, Northern Germany is an utter and complete mess while "Germany" exists mostly in Austria, Bavaria, Baden and Württemberg. Both Africa and Australia are a gigantic and utter mess.

The Germanic invaders of Western Europe didn't adopt Romance culture, and as a result, Europe is very Germanic in their timeline.

Latorik is actually a pretty unique take on a post-apocalyptic nation. Rather than being some global worldwide catastrophe, it appears to be mostly isolated in one area: Albania. Which then makes sense as to why they're militaristic and xenophobic.

What I am confused by is, however, that all the non-English words appear to either be made up or Latin. Not that I am complaining, I'd just like to know why (unless they are actually Albanian, then oops)

Most are made up (IC explanation is roughly two hundred years of isolation and influence under a malfunctioning alien war machine), other stuff I haven't put in yet consists of really, really, really bastardized versions of albanian names.
