All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Okay...I don't think I can do another 35 minute album. I am REALLY getting tired now.

Oh well. 16 albums is good enough ☐

[The Strokes - Last Nite](#)

Your nation is like a son. What it does right is your merit, as well as what it does wrong is your fault. When you praise it, be lucid and avoid exaggeration. Praising it too much can make it indolent. On the other hand, when you criticize it, be harsh, but do not ridicule it. Do your best to improve it, not through derision or disdain, but through good examples and dedication.
