Edit: This album seems noticeably more electronic then the other stuff, even though the other stuff has electronics too.

Huh. Corrian's monoculture is getting a bit ridiculous.

At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

If there's a problem with my excessive posting in this thread a mod can just say so. Right now I don't see the problem with it and I've even kept it to a minimum if it goes too long with it only being me posting.

I somehow broke my Spotify advertisements today and one has been sitting up all day, not going away but not really in the way either. The best part? The audio advertisements that sometime happen after a song seem to be completely gone today because of it "Breaking" or whatever. The most glorious breaking ever!
