Jake Paul being arrested.

Summary: After the Soviet Union tested their Molotov-1 nuclear missile on a field in Poland, the radiation spread through Europe, reaching Romania. The Ceausescu Era never happened and the RPR (Republica Populară România) Balkanized. When the balkanization began, the counties in the Timiș region and the land bordering the Mureș region united under one banner, one monarchy and one king (or queen).

*Nuclear war.*

The Anarcho-Communist People's Republic of New California Island  
Comrade Posadas was right: The dolphins were intelligent, the nukes were  
exploding- and our glorious republic arose from the ashes of California.  
He got one part wrong though: our revolution was triggered by Covid-19
