Man gets kidnapped, stuffed in a wooden box, and is shipped to a diamond mine in the Congo Rainforest.

A large peaceful African island nation with a love of civil rights, tropical rainforest, their own language, and socioeconomical systems.

Man owns a new car dealership, walks into the building of his business to start the day.

[Lescaaris](#), a progressive democratic-diarchic merchant republic in the near-future "post-post-apocalyptic" America, where society is rebuilt and new nation-states have been created while the United States government is nowhere to be found (I doubt the setting is really important and relevant though). Famous for European architecture, EDM, nightclubs, civil liberties, job opportunities, and trade fairs.

(To get a general theme-idea, Lescaarch culture is a combination of Dutch, Italian, Belgian, Monégasque, and French cultures.)
