Elton John - Levon
From *Madman Across the Water* (1971)

*He was born a pauper to a pawn on a Christmas day
When the New York Times said, "God is dead
And the war's begun, Alvin Tostig has a son today"*

*And he shall be Levon
And he shall be a good man
And he shall be Levon
In tradition with the family plan*

*And he shall be Levon
And he shall be a good man
He shall be Levon*

*Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

*Do you still feel the pain of the scars that won't heal?
Your eyes have died but you see more than I
Daniel you're a star in the face of the sky*

Elton John - Nikita
From *Ice on Fire* (1985)

*Oh Nikita you will never know anything about my home
I'll never know how good it feels to hold you
Nikita I need you so
Oh Nikita is the other side of any given line in time
Counting ten tin soldiers in a row
Oh no, Nikita you'll never know*

The Jesus And Mary Chain - *My Little Underground*

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
