Fascinating. Though the Skyhookedian leadership have no doubt attempted to cover up their successes in genetic manipulation, the shining example of Shawn Bjarnson is seen clearly by men such as myself. All the more proof that my research is not only practical, but of paramount importance to not only the Vanguard Republic, but to all mankind. Bjarnson does, of course, still apparently suffer from some of the psychological side effects I have encountered in my own experiments, though he perplexingly displays a surprising level of overall mental stability. Perhaps there is something that can be learned from him. If he or another example of an engineered being could be acquired for testing, we could finally find the breakthrough that will allow the Supersoldat to become more than just a crazed berserker. Perhaps this will be the first step toward the future of human evolution.

- Director of Theoretical Research, Dr. Lazar Korus

(BN: While you could do Korus, I recommend you do Kalrand, since he has the most info and is the actual leader.)

"I can only access partial information about Kalrand, because it seems that the data was corrupted in the process (again). Of note is Kalrand's unique and interesting, if somewhat vague, take on revolutionary ideals and goals. Overall, he is one of the leaders I agree the most with out of all the ones I have been able to gather information about in the multiverse, despite some ideological differences"

- Stanislav Tyrankov

"I can agree with some of his policies involving modernising the legal system and kickstarting technological progress. However, as an anarchist myself, I don't believe that crushing dissent would help him stay in power, as he's building up the fumes that would spark a full-scale revolt."

I have heard about you, but I have to admit, it has been a while and my memory is kinda foggy at this point. With that said, it's nice to see someone as brave as you! What a life that you have walked through and I must say, you are still as brave as ever. I would say that you should not be too distraught over some of the things and actions that you have nearly or almost took. After all..... it's only human to make mistakes, and it's a sign of a human with a heart to learn from the mistakes, which you have done just that. I wish you all the best, and I hope that we will meet each other again for a tea, or something of that sorts. Now, please excuse me, I will have to be somewhere, and I certainly would not want to hold you back much more than this conversation. Please take care of yourself!

My reaction to some strange, wormy alien species won't be like Marcus's no way, I'd dip in the other direction. Well, it did work as he thought so do I have any more complaints about him? Well yes but mostly no. I'll express those in another time I think."

I have little patience for baby boys who act like they're living inside of a comic book universe. You want to conquer the galaxy but you haven't even seen it.

And what's that little knife you're holding? Do me a favor and drag yourself out of your own delusions. You're a commoner, just like me. Just like everyone else. Regarding Angie Pasorelli, Ah, a police detective. Finally, someone I can sort of relate to. Maybe. Can't say I've ever really shared much of her idealism in catching criminals, though people like her are definitely valuable. There's no motive quite like genuine zeal, and she seems to have kept hers all through her life. She's fully committed to her post

"I couldnt find much information about Vakyrrie in the realm of current service, but from what I do know, my opinion is decidedly split. She's a fighter, something I respect immensely. But many of her actions as a child paint her in a strange light, which makes me question her mental state as if current. As of now, my opinion is neutral." -The Sultan

"After much thought and consideration, I say the Sultan is still technically a horrible person; just saying that because killing one's own siblings in disturbing manners, because said siblings usurped them so they can be the leader, makes the person, who gave the order to kill them, no different. Really, his family is very dysfunctional and divisive which pretty much led to Ori here to enact bloody vengeance on his own siblings. Not jailing them for long periods of time or even a family therapy session, just murder them."

That is the only time we ever actually cooperated as brothers. In a dream.
