Monkey 288 had his head violently crushed in extensively with large heavy rocks over and over, splattering the immediate vicinity with gore until the rocks were crushing solid ground, but then they kept going until they had to get NEW rocks, at which point they stopped crushing the monkey's head in.

Monkey 284 was the CCP agent who killed Monkey 290, the guilt of doing such a heinous thing sent him into a spiral leading to him jumping off a cliff.

Monkey 281's head was crushed and crushed and crushed by crushing machines. His head was taken, put into a machine. The machine had jaws that SLAMMED DOWN onto his head at high speed, crushing it extremely hard and extremely violently. When his head was crushed it made like a splash and sprayed everything in red. His skull was crushed into dust. His brains and eyes and all that were liquified and were spread about the room.

Monkey 280 was beside Monkey 281, his mind as still and unfazed as a statue. The beatings stopped as soon as he was outside of the hospital. The guards outside his cell realized what was going on and ran to the hospital, hollering and panicking as the sound of guns fired filled the air. A medic rushed to 280's side who tried to revive him, but he was dead.

The medic was monkey 279. He had failed to save a life. He sat there, watching the horrific scene as his eyes remained unable to shut. Why 279, of all doctors? Why did he have to be the one to watch this corpse, knowing he was too late to save him? He couldn't bare the thought, it was too much. He took the scalpel from the nearby medical tray and pierced himself repeatedly until he was dead.

Monkey 278 was right by medic 279 when the cops arrived. They saw the monkey and immediately decided: HE killed the medic!

"HEY! Stop right there!"

Monkey 278 froze as the monkey cops apprehended him, weapons drawn.

"DONT MOVE! I will f*** SHOOT you, do you hear me? I will SHOOT YOU in the face!"

Monkey 278 was in an uncomfortable position though! By force of habit, he adjusted his position just enough to set off the monkey cop with the gun.

Monkey 278 was shot 72 times.

This is my last one - a special one.

"I love my child, but sometimes I wish, it was dead", said the monkey mother, to a monkey friend, who happened to be a philosophical monkey.

A few days ago, I had a black bag, which my small child should not see. It said "What is in this black bag, may I see?--- Oooh handcuffs for carnival!... look mum bought handcuffs for carnival....!". It was so painful, that the others laughed, but my child loves to open boxes and bags and is soooooo curious.

On one other day, it came back with a cat and sang "I `m wanted - dead or alive" by Bon Jovi. I have no idea, where it got this cat and where it vanished, but my husband came back.

Yesterday it said: "I have drunk from the hanging gardens of Salamis, eaten the fruit of life and created a child song, and sailed across the seas of wetland"

"What have you done?" I asked nervously.

It said: "Well- I ambushed Salamis and drank from her breasts, while she was sleeping with the baby on her. I have taken "the coconut", have eaten it with the baby,

and thus created the song "Wer hat die Kokusnuss geklaut /Who has stolen the coconut?". How could the baby alone steal it? Think!. I have also taken the beautiful paperboat from uncle and sailed across the rainpuddles with it. Was not that good for the ship, oops.

I often dream, that I kill monkey #277, my child, because it so often annoys me - it is curious and clever and clumsy. A brat. I often do not know what to do.

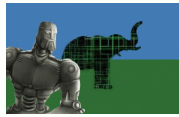

I fear, that one day, I will do it...

Am I that mean to kill a young child in this story?

Please read Spoiler below for the good ending of everything --->

The good ending

Monkey 275 was brutally crushed by monkey 1092, who had broke the fourth wall and was transported to today due to the sheer amount of instability that happens when something breaks the fourth wall.

Monkey 274 was a human nationalist despite being a monkey; and he went back to murder every surviving monkey to make sure none had survived and all were 100% dead. It was for the good of the multiverse that monkeys be erased. He then ended his own life for the process. It was his turn to die.

A house fell on Monkey 269. Then a little girl and a dog came out and stole his shoes. Then a bunch of little people sang a song about a Lollipop Guild. After that, everything started to get a little fuzzy.

Monkey 268 booted up the old, forgotten code of 433 because if it isn't dead, it's alive. 268 then shot himself and gave it to 267.
