The way a tumblerbomb works is essentially by creating some sort of portal which sucks its surroundings into an unstable pocket universe which then collapses into nothingness, presumably rending the new, unwilling occupants of said universe into little more than mixtures of exotic particles with more metaphysical meaning than anything else.

In other words, it's a very big and very efficient vacuum cleaner.

Our boi Luto made an entire political ideology that amounts to "nazbol but with more naz and less bol", given how it incorporates Black Sun symbolism, advocates for ethnonationalism, completely rejects capitalism and yet maintains a lot of capitalism's basic assumptions, and thinks democracy is for nerds.

In other words, he's a cryptofascist who wraps himself in a commie blanket for funsies.

there's actually kind of a language now, nice. which means one could write songs or texts in dialect if they wish to finish it up. come to think of it... personally if i were gonna come up with a dialect i'd change "to cry" to something else. also something something self-proclaimed centrism.

This is likely a nation whose citizens you wouldn't want to screw with, considering that the average household is allowed to own enough firepower to arm a small militia, which also includes explosives up to trinitrotoluene in power.

While they host the Union Jack on the canton of their flag, their political system seems not to have much to do with the Westminster System. With that in mind, there are roughly 2.4 million people fluent in Welsh... which is 2 millions more than the number in the UK. So wow.

Their "superweapon", the Tumblerbomb, was...invented by two children who wanted to make sure their summer wouldn't be boring, not only that, but how it works is it sucks people into its own mini-dimension thing...and then immediately crushes them by sealing the entrance to the warp, I think? Leaving them at the mercy of a painful death.

Kehrernesia is like RL New Zealand, but with a large amount of British culture mixed in, such as obsession with Shakespeare works.

And of course, it still maintains the Maori Haka dance tradition.

Throughout his child- and teenhood, the man who would become Alistair IV was part of his schools' debate team, student council, and -in addition- a companion of his grandfather Erik II, who he followed to learn how to rule the country from. He became Crown Prince at the ripe age of 18, and legit studied law in Harvard as Crown Prince.

AN: Forsinard, Pulsroth's capital city, holds only <8% of the country's population. In contrast, New Hereford holds roughly twice that. Most "major" cities in Pulsroth, presumably, have a population close to that of Forsinard rather than NH, however.

As a rogue nation, the Riche is not part of any international organisation, and has accomplished the feat of being in a state of war with 22 different states, the most noteworthy of which being the Foroned Eaststrandish Onedraft, the Europish Forband and the Republic of Inland, all three being nuclear power that can unleash the Armageddon upon the Anglo-Dans.

The Jamesian Republic largely came about as a result of the Jamesian Revolution, which began in 1791 and was led by a man named George Irving.
