Euranian Imperial Calendar was created in the 18th century under the Victoria I regime in order to honor the height of the kingdom's power, but also to move towards a modern, secular time system while retaining some traditions. Largely based on the Gregorian calendar, it avoided decimalization as with the French Republican Calendar.

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "*Royal Socialism*", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

They have a very complicated history with regards to sovereignty, what with the territorial disputes involving several nations.
