Like some YouTuber said, Muse is doing to Dubstep what Rage Against The Machine did to Hip-Hop.

I have no idea what that even means...

Not listening to anything atm.

If nothing exists, where did this anger come from?

I can't remember if it was exactly hip-hop, or not. Doesn't Rage Against The Machine play the turntable scratching on guitar? They were just referring to how Muse plays Dubstep on instruments.

Does it really matter what instrument it's played on if it's the same outcome?

Silence.

Well, I find Dubstep played on instruments to be more impressive than the typical way to play Dubstep, especially when it's dull and not all that impressive Dubstep turned into Instrumental form. I still think Muse partly did that to troll their fans, and it seems to be working rather well....the amount of idiotic comments on the Muse song is ridiculous.

[Mumford & Sons-I Will Wait \(not live version like the other one I posted\)](#)

This album comes out today (Or tomorrow for me, since tomorrows in 2 minutes), so I'll probably check that out.
