God is an Astronaut-Fragile.

Been a while since I really listened to this band. They are one of the first post-rock bands suggested to me and that I found. Sigur Ros, Explosions in the Sky, and then God is an Astronaut. They were one of my favorites, and might still be.

They're a good band though, worth checking out IMO.

\*Fives\* Good song. Not sure the new Sigur Ros album is my favorite Sigur Ros album, but I enjoy it. Good ambient music. They seem, to me, to be 'original' in pretty much any kind of form of music they do,

and usually have a variety on each of their albums as well. Like the band Hammock has some of the best and most 'original' ambient music I've heard. I sorta hope the rumor of them having another already completed album that's supposed to come out next year is true. It's supposed to be fairly different from the most recent album. I get the feeling they wrote enough music for 2 albums or something.
