He made write the Anglo-Saxon Chronicle, which was written in English rather than Latin. Alfred mostly focused on oversetting, but he also wrote enfarings and forbettered handscripts.

Ah yes, say no to Latin in True English Language

This sigle let him come to a forsanting with the vikings who were led by Guthrum. This Forsanting drew the edges of the land Alfred and Guthrum wealded, giving name to the Danelaw. Wessex greatened its land by taking Kent, Essex and much of Myrce.

Their Gurthrum trully landed in Anglia while our Gurthrum landed in our world, Zandrau

Let me sum up everything, everything in the factbook was written in 'True' English. No Latin, No French, No Ogaa Boogaa, only Pure Germanic family language. Let me guess, this all pretty much about What If Danelaw didnt get their ass kicked by Anglo Saxon natives and perhaps repelled French invaders.

Same-Sex marriage was only legalized in New Carthage during the current king's reign with a direct royal decree: In particular, they made being old while a parliamentarian illegal to fix the problem that didn't let them do that legally.

So basically, it is an alternate England conjoined with Denmark and parts of Norway together in one nation. Not knowledgeable in history before 1900 but it seems like they fought some kind of civil war which solidified the Godwin's rule over the "union". This is the first time I heard of something called "Danelaw" in which the Danes had control over parts of England so apologies if I don't understand the lore fully.

Lazarie has a Parliamentary system, where the Prime Ministers in their nation are elected every 5 years if they get a plurality of the vote. The current Head of Government is Francois de la Roche. Roche was elected in 1964 after receiving 58% of the vote and, I assume, receiving the plurality of seats in Parliament.

Hosts are temporary but large war parties formed in response to large enemy forces or to achieve specific unique objectives, and are always dissolved shortly after that objective is accomplished or the enemy is defeated. They, like all Geshites, make heavy use of hit and run tactics and the compound bow.

They're patterned in a manner not too dissimilar to the Imperium of Man (down to the disdain for AI, but have a much more expansive scope-of-ultimate-goal than merely "providing safe haven for a biological supra-species"). Their space cult, however, far exceeds the Ecclesiarchy (and by proxy, its real-life inspirations in the Catholic church and its Inquisitional arm) in terms of amorality and unscrupulousness.

The Carthaginian Parliament's Upper House is named the House of Dukes. It is not elected, and it is made of both its namesakes (hereditary duchies) and appointed Lords -which are either people given that rank or just royalty because they're royal.

It is a social state that focuses on making a better life for its people.

In Nacrad, both men and women are subject to universal conscription on their eighteenth birthday. They can either do their 52 weeks then, or wait until some later date between when they're eighteen and thirty. Once they get out, they're given the chance to serve as reservists until they're forty. Conscientious objectors may choose to perform 83 weeks of civil service instead.
