How dare I not be exactly right. Your primary banner says exactly one thing to me: anime. Technology, for better or worse, never figured in at all. My knowledge of, and whopty-do-ness for, anime only goes far enough to know that Miyazaki is a highly respected filmmaker whose stock in trade is an anime style.

A "cultured" society.

### Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.
