Nightgoat, Mare.

I was actually going to give them a listen to soon since they're associated with Alcest and Amesoeurs, the latter of whom I was listening to a lot recently without knowing that they were connected to the former.

"Jäästä Syntynyt/Varjojen Virta" is Finnish for "Born from Ice/The Stream of Shadows".

I'm listening to a Pandora station based on a couple of Gordon Lightfoot songs as it drowns out the sound of five desktop computers each running a different operating system from one another.

### Cults - Go Outside

intended replacement nation for United State of America  
(original the character donut steel)

*Who is in control of those in control?*

Why does Ben Lee (who I assume is the linoleum faced 'wipe-clean-look' profile in the bottom right-hand corner) look like Rene Auberjonois? Why would Odo be hanging around a rubbish looking holo-world full of quidditch goals that vaguely resembles rejected Final Fantasy 13 concept art? And what happened in order for him to want to breath tornados? And how?!... It would take a vaster intellect than mine in order to answer those questions.

### Aphex Twin - Flim

9/10

It makes me think of succeeding in escaping a horrible event, defeating something evil for just hoping for a better future; there isn't much talking, there would be memories, and lots of them but not much else. It has a sort of out-of-sync or high feeling that I dig. I wish I could explain better.

The Golden Eel, Ween.

weird.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
