Alligator onwards is all great. Their latest album, High Violet, is probably the best place to start. From what I know, people either find them really boring or are completely besotted. They're one of my favourite bands, personally.

Their newest is the one I've heard and enjoyed. Thanks!

Extended version of the recorded version, or at least it "teases" more of the songs.

Found out they were going to be at Sasquatch, but that's freaking expensive, has a lot of bands I don't give a crap to see, and is of course sold out already.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
