Health - Before Tigers

I've liked everything I've heard off this album thus far. I might download it.

I'm not really into games, but I heard something about that, yeah. They're a very interesting band.

Growing - Massive Dropout

I'm a pretty serious gamer, so I quite enjoy a lot of games. And every now and then a soundtrack catches my attention. Like with movies, too. I've actually listened to some soundtracks of movies before watching them (Black Hawk Down and Hanna), because I found the soundtracks other ways. There's some great soundtracks, but a lot of extremely dull one's, too. If you like a good electronic soundtrack, I highly recommend Hanna's. If you like Hans Zimmer soundtracks, I think Black Hawk Down is one of his best.

Edit: Also, these good soundtracks made me want to watch the movies/watch them more, so there's that, too. I was interested in Hanna anyway, but the soundtrack got me more interested in it. Hanna was good as far as action movies go, probably one of my favorites in that realm. Black Hawk Down was probably the best war film I've watched (Which isn't saying a lot, since I haven't watched many)
