Why would Chicago be our capital?

Chicago has a fair amount of history with labor movements, and had one of the strongest local socialist movements in the US when it was introduced to the country. It's a stretch, and the other cities are more important historically and strategically, but it's something for a communist state to consider.

Their military uses the best tank/vehicle of all time and uses the fastest firing gun in history.

Hathian Prime does not use NS Stats.  
HP and all other nations take place in an AU. HP is not Germany.

The communist movement began gaining traction much earlier than in our timeline and thus American communists got it their way

They've incurred sanctions and condemnation from the international community for refusing to continue paying off their national debt, and are looking to emulate Russia and other bad actors by relying more on natural resources to drive their economy rather than international trade.

They have two schools of realist painting :  
Traditionalism (which kind of resembles old school french realism like the school of Barbizon) and futurism (which is closer to socialist realism but maybe less propagandist)
