Nas – You're Da Man

I forgot to add that smiley. Of course I know there's lots of good non-2Pac rap/hop. He's just one of the few rappers I like

Ah...It's amazing how a smiley (or lack thereof) can seriously alter the mood of a written message.

Spice 1 – Clip & The Trigga

Ah, the good days when hip hop was heavily influenced by Jamaican dancehall, had funky beats, and epic synthesizer notes.

Suicide Commando - *Critical Stage*

“ CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Girls Generation - *Gee*

The best K-Pop song and I don't like K-Pop and enjoy Gee.

Also, I looked up how tall Jessica Jung was, it made me laugh. They use camera tricks to make them look taller, every artist, she is 163. Which is alright in Asia, but I would have easily said 170+ because of the camera work, anyway my little K-Pop rant.
