Coalition Of Radical Artists and Scholars.

Most NS Stats and Policies are *somewhat* accurate to how I envision this nation, but please try to judge this nation primarily based on its factbooks.

This is my attempt to write a nation that embodies my political views, but is also played realistically, showcasing both the upsides and downsides of my ideal system. Most factbooks are still an active WIP, so let me know if there's anything you think can be improved upon

AN: Free Democratic Party. SDP would be distant second, but still much preferable to everyone else.

BN: If you choose a party with factions (i.e. Liberal, SDP, or National), perhaps also say what faction you would most align with/vote for.

If men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary. In framing a government which is to be administered by men over men, the great difficulty lies in this: you must first enable the government to control the governed; and the next place, oblige it to control itself.

For Parliament, I would vote for the Arvenian People's Democratic Movement but secretly pull for the Scientific Research Party (in the way that I don't think they'll ever be in power but would love to talk with them over drinks).

Outside of Parliament, count me down for the Social Development Party, not so much for ideological alignment, but because I think Pan-Asianism deserves to be as potent a movement as Pan-Africanism and Pan-Americanism (Which has itself been heavily influential in Wagondia)
