There's quite a bit more to do than Farming, actually. It's just a particularly big industry here.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

Would I want to live there? Eh.... frankly, probably not.

Why? In spite of their full name, they seem to have somewhat "unusual" policies that would probably deter me from living them; notably Conscription, Capital Punishment and No Immigration.
