Good stuff. The guitar on that one is definitely a good one to confuse your brain a little, which is awesome.

Wow. I am really digging this, to the point I just bought the whole album. Eyes of a Cloud Catcher, Agent Fresco

Whoa, didn't expect that kind of reaction to it:P That's good, though. They need more popularity. Apparently the Iceland version of "Battle of the Bands" actually chooses bands based on talent.

Tiger Veil is probably the only song on the album I still can't really get into. It sounds too much like...Wolfmother for my liking? And I'm not a fan of Wolfmother.

One of their songs reminds me of The Mars Volta as well, but I don't find that to be a bad thing. Which, both of those shows the variety this guy can do, and I find it awesome in that regard. But they do a great variety anyway. I mean, mid-album, you got an extremely mellow song followed by an upbeat song. Great band. One of my favorite Icelandic bands now.

Agent Fresco-Paused

Yeah, can't really get into Tiger Veil. Other than that, it is an over all

good ablum.
