I LIKE IT. This is so hardcore. It goes wonderfully with the video. I APPROVE. The lyrics are perfect in this cover for the crushing bleakness. ☐

\*adds to my specials list\*

Damn, son, you know to find those kvlt covers which can make the worst of songs into something beyond beautiful

Try it, Corrian. Miley Cyrus has been made trvu kvlt. ☐

It's probably by the people who have this project to convert pop hits into death metal, or something.

...I wonder what a Lorde one would sound like.

Is it normal how much I really like some of these brutal covers? S:

"I came in like a WRECKING BALL!!!  
all i wanted was to BREAK YOUR WALLS!!!"

^ That sounds quite extreme. ☐

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
