a horrible Dystopia for sentient robots.

Come on! Stop being so mean to robots! What did they do to you?

Hello there. I'm Simonia of MJT.
Our nation has twenty-one provinces, four regions, and four capitals.
And before you ask, Pink Castle City is called that for its pink castle, Pink Castle City's main building.

Is it pink because the city is called Pink Castle City or is the city named that because the castle is pink? Which came first?

Political views don't determine someone's worth as a person.

I have to completely disagree with that, that is how many people reasonable value the life of a person. Although as a nihilist I technically believe there is no intrinsic value, you can still assign fake value to things, which can be higher or lower depending on certain factors. Example: A murderer would have less stand-in value than a regular citizen, and a person who undermines humanity by supporting robot rights would have less than those supporting the Utopian dream of humankind by using the robots without regard for their thought.

A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.
