Prolog 2012 - Horytnica

Genre: Heavy Metal
Album: Historie Walk O Wolność

Off to a great start with this album. This one might be even better than Głos Patriotów, if that's even possible.

Sen Powstańca - Horytnica

Genre: Heavy Metal
Album: Historie Walk O Wolność

Oh yeah. This is bound to be a great album. This band should easily be filling stadiums and getting heard by so many more people than they are, not just internationally but also in their own country of Poland itself.

I've been waiting for this song ☐ Great album so far, I think I might give it a higher score than Głos Patriotów after all.

Immortal - *In Our Mystic Visions Blest*

CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
