Senser - *Eject*

Leave it to one of those who enter NationStates in the summer for the sole purpose of provocation and offensive actions to spamwhore this thread with a bunch of worthless neonazi music. The Black Hole of Summer is upon us.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Kenny Chesney - Spread the Love

*Leave all our troubles behind now (no worries, no worries)  
Everybody join hands cause it's time now, now.  
(It's time to)  
Spread the love, spread the love,  
All over the world.  
All God's people,  
Spread the love, spread the love,  
All over the world.*
