They've got a big government.

This nation exists in the Fallout universe.

It does not represent my actual views.

Currently, NS policies are canon, but they will only remain canon until they are not.

Things to keep in mind:

- This isn't a single nation, but a whole planet full of many nations. I will usually reference a certain nation when posting.
- The flag being used is just to represent that it is a planet, it is not used at all in the 'canon', as there is no one flag for the planet. Instead I chose to just use an image of the planet.
- I've referenced the prequels 124 times on F7.

This is about your primary banner, which reminds me of chaos marines. Everything else is irrelevant. It doesn't matter whether or not you're actually set in 40k, I think you're just salty that I called your flag edgy.

It isn't enough that they've transcended the concept of nation-states. To them, the very idea of being confined to a single physical form is all but unthinkable.
