I find it silly people complain about it. Same thing for search suggestions. It's more convenient for me to be given results I'm likely to find more relevant to what I'm looking for.

Hmm, she's got an interesting singing style. It's like a style that I often don't care for but her singing doesn't bother me.

I have a lot of indie rock to go through still (I think), I just haven't got to it. I don't really have much indie pop, though.

And I can't stop listening to Concrete Walls.
