Libertarian on paper, but in practice there is an untouchable elite, whose wealth is measured in terms of entire planets, that keeps the poor in line with an iron fist which is really just normal libertarianism but the point is Zirkovia isn't really a bastion of liberty

NS Stats are gone, Poof.

A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;  
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Humanity First!
