Monkey 735 tried warning monkey 781 about jumping on the bed but was too late. He was promptly punished by strange men in black suits.

Monkey 734 investigated the demise of Monkey 735, he had uncovered the many secrets of the foundation controlling all of the monkeys. By then it was too late, he was too deep in the investigation.. Monkey 734 vanished mysteriously, he was last seen running through alley-ways attempting to escape strange men in black suits.

Monkey 733 was a strange monkey in a black suit, before deciding with the other strange monkeys in black suits to choose who got what valuables from the late Monkey 734. The discussion quickly got heated, and a struggle began as one of the Monkeys had stolen some possessions off Monkey 734 without permission. Monkey 733 was then on the run from both the police and the Monkeys. The Monkeys would then have the last laugh, giving up Monkey 733 in exchange for freedom. Monkey 733 was subsequently hanged for first-degree murder, while the other Monkeys were then betrayed by each other, resulting in their execution not long after.

Monkey 725 disappeared when he said something about monkeys in suits

The island of the Galapagos and the main power of South America controlling the West of South America. Militaristic and authoritarian with a troubled past and an uncertain future with stability at an all time low due to a lost war and unpopular occupiers.

Monkey 723 was hired by monkey 734 to help with his investigation as an undercover monkey, he was sent to the foundation and while he was there he saw some truly horrifying practices that the foundation does. Their attempts to silence any monkey who speaks about jumping on the bed, the agonizing torture that any poor monkey goes through once captured, and the hiring of millions of strange monkeys in black suits to make sure nobody knows their secrets. The horrifying truth made monkey 723 insane and commit suicide as a result, the only things monkey 734 got from him before his demise was the primary objective of the foundation: To make sure nobody tells a monkey to stop jumping on the bed.

Monkey 722 was a strange monkey in a black suit, the very one that had detained Monkey 734.

He killed Monkey 734 the following day after capture.

He carried out his usual duty until he could not take it anymore, the guilt of killing 734..

He jumped on the bed.

Monkey 721 was just about to expose the foundation before tragically shooting himself in the back three times and disposing of his own body.

Monkey 720 took a nap in an oil barrel. He never returned.

Monkey 719 took a ride on the M.T.A. and didn't bring enough cash. But did he ever return? No, he never returned.

Monkey 716 was another Monkey in a strange black suit.  
The government found out about their plot and killed them all by lethal injection, forcing the others to watch. Monkey 716 was given the injection first.

#### What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their ~~master~~ employer with their scientific endeavours (hump or other physical deformity not mandatory).
