The advertisement was also offering to give you a free American flag if you bought their stuff....If I'm putting a flag on my house (We don't), I'm putting something else. Something humorous (Game of Thrones house flag?), or Gay Pride flag to show my support (In the middle of the country, in gun country ☐ }, or something else entirely. Not a dumb American flag.

And America is like one of the worst off first world countries right now. There's nothing to be proud of about America right now ☐

Avskum - *Fear*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Album wasn't as good as I remembered. There's better downtempo-like stuff than that.

Celldweller-ShutEmDown

Almost done with all the easiest electronic artists to go through, which are the ones I've listened to only 1 or 2 albums of in total.
