The Unitary Republic of Dozdcheny

Overview/Custom NS State and Policies | High Inspector

Spokesperson | Union's Chairman

A PMT esoteric **Black Providence**-influenced crypto-dictatorship situated in a world shattered by nuclear war and decline of imperialism. The nation is striving towards an eventual balance of the people's will and the nation's order, but also withdrawing away into a state of semi-isolation. Third-way economy backed by subsidized corporations, nationwide public surveillance and zealous state worship -- Dozdcheny is run by a faceless, nameless **High Inspector**, himself a social experiment with a goal to reject humanly fallacies. | OOC: Belarus of Zitravograd's canon. The landscape of Destyntine is highly polluted by industrialists, with the remnants of its citizenry forced to live under a cyberpunk dystopia.
