Monkey 2147 was one of Monkey 2149's friends. He survived the fall, and after experiencing the death of his friends firsthand, he fell into a deep depression and died of a drug overdose.

Monkey 2134 pressed the big red button that kills any previous monkey who didn't actually die. He then felt so guilty that his heart simply stopped beating.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin.
Shockingly, we *do* use NS stats, with the exception of lifespan.
