Johan Skugge and Jukka Rintamaki-Battlefield 4 "Stutter" Theme (Battlefield 4 Soundtrack)

Even though, just like movies, video games have a lot of video game soundtracks that fit into this generic style, I always find myself liking video game soundtracks more, even by big name games. Even the generic style of video game soundtracks is more interesting than the bland orchestra music of movie soundtracks, though there are definitely soundtracks in video games that bore me to death.

The Who - *Eminence Front*

I don't know what they're saying (probably too high on whatever drug was popular back then), but it sounds catchy ☐

Excellent song, another example where metal-archives isn't all that precise with genre naming, they list this as dsbm, but this is closer to normal bm. Also, Corrian might like this at least on some level, it has some post-rock/metal vibe.
