Monkey 55, though he may have died in a tragic car accident in his youth, after many years of struggle and a small deal with the devil finally came back to life! And then died promptly afterwards again as he was exiting the hospital (This time he was hit by a bus)

Monkey 42 got hunted down for their pelt in a jungle

The wily leoon,often seen in Kickoo land was native to Zebasi savannah until it's was hunted near exintction for their pelt,since most zebasisan never seen a leoon,we use manufacture textile replica to honor our ancestor.

M'basana jerozi,a.k.a geroffy is one of the tallest land animal in the square,it's was the first animal to be catalogued by Zebasi scholar in the zuzannah yaya,the square's largest compondium of fauna and flora,horticulture,zoology,biology and botany are all field of study for the curious inhabitant of Zeboya

Zebasi architecture may seem simple but it's a perfect fit for the hot climate,inspired by the mount of Bolaza bugs,the ventilation in Zebasi structures was originally designed to keep the royal Waongii juice ,now everyone can live in a air-conditioned home.

Monkey 37 attempted to commit suicide via cyanide. However he actually took a fiber pill, and when that didn't work he kept trying more, until he died of constipation.
