Phil proceeds to raid a tomb and encounters Nathan Drake, who promptly beats his ass in a cinematic fistfight. Phil leaves his first job without the treasure and only a broken nose.

Colossal modern island nation in the North Atlantic. Ruled by a compassionate yet slightly-unhinged king, with a very isolationist yet empathetic populace. Notable characteristics: terrifyingly mighty air force and navy, world famous cars, legendary blend of wildlife.

Flag created by the legendary Almonaster Nuevo.

NS stats are canon except for population; factbook started. Some things are my RL views, some things are not. If curious, feel free to telegram.

Phil goes to Florida by foot, after learning his account is drained, and discovers Samurai Jack Black's body. He steals his wallet which was foreign money in it, and back in time, his drunkenly lost keys are in there. Phil finds the plane and goes home, to kill his bot, which also had money being printed inside of it, so he puts it inside of himself and works, and boom, Robo-Phil the Anti-Taxing Cyborg.

He buys a mansion in the Maldives.

One day, Robo-Phil or whatever wakes up to the morning sunlight.
It's only downhill from here.

In the distance, angry chants are heard from a group of robot protesters and how Phil mistreats them. He tries to assault one of them, but fails, and is apprehended by them and taken away, never to be seen again.

Our new man is named Jack. He works 9-5 at McDonald's.

TEXAS - goodbye, everyone :)

Jack has had enough of Bitchus Felonious Cock's bitching and punches "her" out. It turns out Bitchus Felonious Cock was actually three toddlers in a trenchcoat, who cry from the beating. All the other customers give Jack a dirty look and assault him in turn for harming children.

One day, Taco Man goes to the toilet to take a dump, but strangely enough, the poop won't fall down. He then goes to his local doctor and found out that he had colon cancer. Due to this, Taco Man only has a year to live.

A timeline recorrection reverses the rapidly decaying turn of events in T578334, mostly being experienced firsthand by Taco Man (*Formal name: Man #814226*). The reversal process starts from his 15th last day of life, all the way to the moment the person who would become taco man took his first bite into the taco he bought only 34 minutes

Founded: May 13, 2023
New York Times
Democracy

earlier, only this time, the rule "You are what you eat." does not apply. Therefore, #814226 after finishing his meal, never became Taco Man , and instead, paid for his food and went back home.

That was until his car broke down in the middle of a crowded intersection.

Following this event, Taco Man, takes this "You are what you eat" too seriously and feeds an ant a piece of a tank.

He eats that ant and becomes Tanky Taco Man, he destroys a few buildings and realizes tanks have no colon, so he finds the cure to cancer:

Make every cancer patient feed an ant something unalive, and eat that ant.
