According to all known laws of aviation, there is no way a bee should be able to fly. Its wings are too small to get its fat little body off the ground. The bee, of course, flies anyway because bees don't care what humans think is impossible.

I **cannot** take any music later than 1980, with a few exceptions.

I annoy myself by blindly restating opinions already said in the quoted post with minuscule changes.

Somebody once told me the world is macaroni, so I took a bite out of a tree.

It tasted kinda funky so i spit it at a monkey, and the monkey started cursing at me.

about a year later it turned into Darth Vader, and he threw his light saber at me.

But he missed me by a meter and hit Justin Bieber,

and then Justin was history.
