/reserved DEFINITION:

To reserve a post as to prevent being ninja'd. This is especially useful for having posts that may take effort or a good portion of time to make, as there is a greater chance of such things being ninja'd than a slash and a word. Only practical in some threads compared to others. The idea is to put /reserved first and edit it once you have a proper answer. As such, you are not ninja'd. BN will do you as long as you eventually edit your /reserved into a proper post.

Come on, you could have done better than that!

Just last night I said:

“
Gun Violence: clearly the solution is to sell guns to everybody! If possible, have a law get passed that makes gun ownership mandatory for everyone! Think of the profits!

Illegal Immigration: More people means a bigger market! And if they're illegals then we can pay them 10 cents on the dollar or less! What's not to like!

Climate Change: Much more problematic. We need to weigh present day cost of climate-saving measures vs the long-term decline in profits should the Global Warming get worse. Maybe we should just continue raping the planet and hope that science will solve it for us?

Of course, I prefaced it by saying "let's think of Hot-Button issues through a solely Capitalist lense, but out of context it's not great.

and for you..

“
