All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Phil Collins - You'll Be in My Heart

From *Tarzan: An Original Walt Disney Records Soundtrack* (1999)

*For one so small  
You seem so strong  
My arms will hold you  
Keep you safe and warm  
This bond between us  
Can't be broken  
I will be here  
Don't you cry*

*Cause you'll be in my heart  
Yes, you'll be in my heart  
From this day on  
Now and forever more*

*You'll be in my heart  
No matter what they say  
You'll be here in my heart  
Always*

Joni Mitchell - Both Sides, Now  
From *Clouds* (1969)

*Bows and flows of angel hair and ice cream castles in the air  
and feather canyons everywhere, I've looked at clouds that way  
But now they only block the sun, they rain and snow on everyone  
So many things I would have done but clouds got in my way*

*I've looked at clouds from both sides now  
From up and down, and still somehow  
It's cloud illusions I recall  
I really don't know clouds at all*

Bon Jovi - What About Now  
From *What About Now* (2013)

*Cause tonight, we're alive  
We'll stand for the restless, and the lonely  
For the desperate, and the hungry  
Down for the count, i'm hearin' you now  
For the faithful, the believer  
For the faithless and the teachers  
Stand up and be proud  
What about now?*

We're still together still going strong*
