Katatonia- Dancing December

The second half of the song is one of the most eargasmic pieces I know. Shame it's so short.

These guys are seriously one of the best math rock, post-rock, electronic bands ever. I really dig their unique style.

Also, just deleted a live album of theirs, because I don't want to go through live albums right now.

However, they sounded great live...post-rock bands seem to be like, masters of live performances.

made it open to all techs and therefore are allowing Athan's magic.

I like them too but I have yet to hear anything by them that sounds mathy.
