All other monkeys that are not doing anything but having a usual routine in Monkeville are seen growing fungus on them. We send them to spread the infection to the other monkeys, and arms ourselves with AK-47s.

Monkey 877, connecting the dots with the unusual disappearance of nearly 100 monkeys and the spread of some strange mold on their backs, believes that there is a conspiracy to kill the monkey race. Not only that, but it believes that it knows how to overthrow the planners of this supposed monkey genocide.

A shame that Monkey 877 mysteriously disappeared without a trace.

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

monker 885 (specimen CURS_GRGE) was neutralized for showing aggression after the breakout. His family, monkers 884 and 883, time traveled to revive him but accidentally released 6,900 more monkers. Monker 7784 was killed on the spot because 🦖🦖

MEGA TROLLING – The art of trolling has been around for decades, but the end of trolling, Mega Trolling, has laid dormant in the city for thousands of years, as a significant amount of trolling has been achieved throughout history. Recently, though, amounts of trolling have increased, birthing the event "The Ancient Troll-Quinox", which is on the 22nd of September every year.

Monkey 882 of the original monkey timeline found Dr. Doofenshirtz's disintegrator-inator and disintegrated all 6,899 monkeys of the time travel shenanigan problems who were all conveniently shoved into a room together. Then Monkey 882 tried to use the inator again in front of a mirror because he blinked last time. The ray bounced off of the mirror and hit Monkey 882.

Corrupt Dictatorship

The Monkey Time Police was in a bad spot. After the accidental death of Monkey 886 the Monkey World Government cut their funding out of the public's outrage. To make matters worse, the leadership of Monkey 99 was faltering, and the Monkey Time Police was on the verge of fracture.. but all of this had to wait. 6,900 monkeys from the past had been released, lead by Monkey 885 (AKA CURS GRGE). A massive war ensued, lasting years (though it seemed like minutes due to monkey time shenanigans) but eventually all 6,900 monkeys were defeated and executed, although 885 seems to have avoided capture.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

Monkey 875 had a special mission only I know, and built a machine to complete it. The mission has been successful.

But he had a price to pay.
He is has seen the bright side of life and is now called Mr. Brightsight.

The NationStates Spacetime Management Organization(NSSMO for short)was eventually reinstated by the NSSTAES due to the incredible instability of the monkey genocide universe, and they were tasked with something pretty hard.

Stabilizing the monkey universe in order to prevent the entire universe from collapsing.

It was a hard job, but they were able to repair the damage to the universe and eliminate any other low tier anomalies on the way, this however came at the cost of 8 monkey's lives in order to repair some of the major damage, one of those dead monkeys was monkey 879, who died twice. Once by an april fools prank, and again by a purge of 8 monkeys. That must suck real bad.

(were on monkey 872 now)
