War must be, while we defend our lives against a destroyer who would devour all; but I do not love the bright sword for its sharpness, nor the arrow for its swiftness, nor the warrior for his glory. I love only that which they defend.

Burbon in your eyes by Devil Doll.

I hate you.
Yes, I do mean you.

I openly admit that I use it disparagingly. Something about the mentality of the group referred to being rather contrary to American values.

Do you know someone who might be a White Protestant of English ancestry, report them to your block Sargeant CM, and he will drag them before the New House Committee on Un-American Activities. Report your neighbors.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

He heard on this music forum he's on (For the band Secret Chiefs 3's record label) that they were highly recommended. I think he gets a lot of music from them, which he then drops to me.
