everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there

How about mentioning the particular song instead of just telling us what band you are listening to? It helps a little. It also (and no offense intended) makes you look not as lazy.

YouTube needs to get rid of their "Thumbs up" system just so people can quit with their dickish "Thumps up" comments and stupid comments about people thumbing things down and whatnot.

Not that people wouldn't find some way to be dicks anyway.

i, the witchfinder, by electric wizard

perfect.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
