"Well, Pre-War America is worse off in social mobility than a totalitarian dictatorship. That...is truly something. His surveillance state reeks of Pre-War China, which I despise. Of course, I despise all tyrants, but I guess I can't complain about him using breads and circuses to get popular support. I offered modern comforts to get my own popular support, though I never used to seize actual political power.

The strangest thing is that he's a Slav despite his nation resembling China more politically."

"Huh... Well, to be honest, ah reckon him quite a conundrum. His beliefs are those of transhumanism while also preachin' of white nationalism, which given his nation's ability to hook up brains ta big ol' computers that allow his people ta have petty much immortal manufactured bodies, why would race even matter at this point? Ah've seen example of folks getting fancy shiny new bodies in our neighbor The Onigiri Enclave, an' in many a case the new body might not even be remotely tha' same as the original. What is to say a nonwhite person couldn't get one of them fancy brain hook-ups and just use a body similar in design an' all to everybody else in his country?"

Also, I find it extra peculiar Pickett supports equality for ghouls, who were a victim of circumstance, while despising the beings known as 'Super Mutants.' Given what all ah learned about them, while some have become a bit insane, in particular the Nightkin, an' a few havin' their intellect suppressed due to botched mutation, likin' the second generation, were not the original Super Mutants and those kidnapped an' dunked in that nasty virus also victims of circumstance? Even going back to mah reference of the Nightkin, was not much of their mental issue caused by a piece of technology effectin' their brain mechanizations; that with proper treatment an' therapy this could be overcome? This Pickett is some somethin' of an enigma to me."

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...

"Tyrankov? Really? A bit on-the-nose, even for a tinpot dictator. And... that appears to be all he is, really. Somewhat more progressive than his usual ilk, sure, but only in the name of maintaining control, alongside influencing the progress of that great, nebulous construct he considers his nation. Really, that's where his primary failings seem to lie - in the belief that a nation is defined by some great whole - a mechanism of unclear purpose, in which all societal aspects serve merely as building blocks. With him at the top, naturally. Perhaps if he stopped to think about those selfsame building blocks - the people forming the nation he so haphazardly runs - he could avoid the fate that has befallen so many of his brethren the omniverse over. Regimes dropping like flies, crushed by self-proclaimed democratic crusaders from without, and their own citizens from within. But I seriously doubt the likelihood of such a realization. As it stands, I'll happily aid in the funding of whatever militant uprising chooses to depose him. His successors will doubtlessly be more flexible with regards to trade opportunities."

Democracy can never come from a king's grace. It can only come from the fighting will of the people against elites and tyrants alike. "You know what they say; a broken clock is still right twice a day. That's really the best way I can describe my feelings towards Narcissus. On the one hand, I have to respect him, he is a patriot who's fought - at least in part - to defend his people from foreign influence, and return his nation to its rightful status as a strong, independent power. I'll never be able to scoff at that. It's really quite a shame, but I can see the makings of a great leader behind those eyes of him, but at some point those same eyes became prisons, locking away what potential he had and setting this monster free. Now, what we're left with is the shell of a warhawk, marching the same people he's sworn to defend straight to hell. Maybe that's just the world he was born into, maybe he's just on a bad trip, or maybe it's something else altogether? Who am I to say?"

OFFICE OF THE PREMIER

Regarding President Thomas Wiker.

The Black Fox is ever ambitious I see. The Marshal is truly a hero of his Republic and his people, and a leader must exemplify their society. The National Republic of Calliana is in safe hands under a Marshal that has fought and nearly died for his country and this is most respectable.

Catholicism and Nationalism aside, Monsieur Wiker is a man most deserving of respect. An ambitious and tragic revolution has built up to his success at the head of the Callianan Republic, and above all else this must be acknowledged. Solidarity from Quebec, solidarity from Montreal, and from a prosperous Quebec, wishes for a continued prosperous and ambitious National Republic.

~ Premier of New Québec, Reverend Cédric Lesage.

"Lesage....Lesage Lesage Lesage...who is Lesage? Let's see...leader of that unusual version of Quebec. I must say, I respect his devotion to his faith, even if I do not believe in the god he worships, and I admire his libertarian approach to the economy. I do not, however, like his conservatism, and despise the fact that his faith influences his governing...then again he is a theocrat, so I should have seen that coming. Overall, I disapprove of him." "It is a common farce for people like Abrasax to impress the general public: that is appearing before them as the ideal candidate to lead a country. Democracies will elect people who will remain in office temporarily, and I suppose this Raven Technocracy is no stranger to having different leaders? Indeed. Do I think very highly of Abrasax? Not entirely because of his rather easy, mostly risk-free approach in politics. He will not be in power indefinitely, no matter what his personal description describes him to be an 'Evolved' and having to program a thousand robots, which I personally find very silly. And, on top of all of that, he not the handsome type for women in general to swoon over."

How come we refer to a flock of geese as a flock of geese but not call a herd of moose a herd of meese?

"The information I have received on the Kaiser seems to be incomplete, but it is enough for me to comment. I will not judge him for being an autistic, but I am not going to lie: I dislike monarchs. His background shows just about everything that is wrong with such a system. Expansionism and his other policies remind me of the decadent capitalist-imperialist regime that the Aryaxian people had to overthrow. Otherwise, I have little to say, but I do note and view positively his ability to make different explosives."

I won't comment on his name. I really want to. But I will not. I feel like it would be hypocritical of me. Besides that, he seems like a capable ruler. All too often do I find myself reading about autocrats whose only defining traits are "being totalitarian dictators yet this... ugh, Tyrankov has done well in dragging his nation out of the mud. behind them - after all, it's hard for a backwater to catch up on its own. His economic and social reforms are quite similar to my own views and policies, which naturally elevates my opinion of him somewhat though I consider his total rejection of religion to be short-sighted. I'd probably crack down on all the same religions he does were I in his place, and likely even for similar reasons, but the Khoranzen national cult has brought us nothing but benefit and elevated us

I might not like the way you run things around in your nation, given the differing ideologies, but it is still refreshing to meet someone different from another world, hm hm! You being against peace and whatever else that we the Valentians stand for, is the different part, you see? We are all for peace and happiness, though I think your definition of what makes you happy also differs from us! At the very least, you seem to be neutral towards Mother Nature, so... I hope to see you soon again! For now, I am neutral. Not much of a strong hatred, or a strong like, but maybe we can work something out.

#### Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.
